

Family Preservation Services

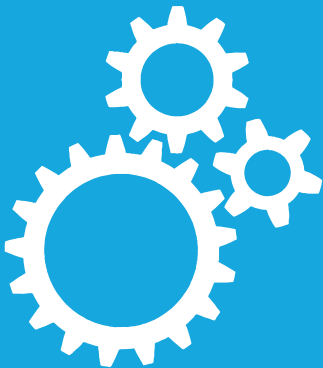

THE GOAL

Offer support and resources to families involved in the child welfare system so caregivers can provide a safe environment in the home.

THE IDEA

One provider will be responsible for all the family's needs. This will promote clear communication, enhance stability, improve consistency and provide better service.

THE METHOD

Providers will deliver services to families using at least one evidence-based practice and will provide concrete assistance to support preservation. Providers will be reimbursed using a per-diem model, allowing them to focus on outcomes for families, not hours billed.

THE OUTCOME

More Hoosier children will be able to remain with their families, which will be stronger, safer and better-prepared for their futures after they've participated in Family Preservation Services.
